RESOLUTION. (mis) No. 544, dated 5 - 3 - 1923.

As a result of their
recent tour of inspection
in the South Kanara Dt. the
Commissioner of Land
Revenue & Settlement have
decided that the existing
orders in regard to certain
stone inspection and
items of land records maintenance work should be
modified in their application to the District. The
Board accordingly issue
the following special in-
structions :—

(i) In view of the fact that the survey fields are large and contain many subdivisions and the total number of stones in the district is very small the Board considers that all stones on the boundaries of survey fields and poramboke should be maintained.

(ii) Inspection work being very light the chambogues should be required to inspect all stones every year

(iii) The Board understands that at present Jamadars have to inspect 100 stones a month. This might with advantage be raised to 200.

The Collr should also see that Dy Tahsr do some stone inspection regularly

(iv) Division officers apparently do no inspection of stones. The Collr is requested to see that they do not neglect this work.

(v) The Board understands

that an old District order directed the Regts to whitewash their stones every year. This is an excellent practice and greatly facilitates inspection. Steps should be taken to revive it.

2/ The R.D. of Hyderabad. A case in which a R'd has been working as R-I for about 9 years has also come to notice. The BO Committee. The fact is that the average R-I is useless as a R-I after 3 years. Now that the time scale of pay has been introduced there should be no difficulty in transferring R-I's to remote posts. The Board considers that this should be done in the interests of District arrangements hereon.

(from orders

Govt circulars to all Colrs ordered separately to be issued.

To
The Colrs of S. Kanara.

for 2/3.

The following points came
to my notice during my
recent tour :- 1. The
(1) desirability of maintaining
all stones on the bound-
aries of fields & boran-
ders.
The reasons are that the fields
are large & contain many
subdivisions. The total no
of stones in the district
is very small — 191 per
square mile at the time
of survey. (The correspond-
ing figure for Ireland is over
700 Skeleine.)
(2) Inspection of all stone
by the Chairperson every
year.
This inspection work is very
light: We have no inspection
of gardens. ~~dry lands bog~~
or dry or wet lands held or
pasture. The Ot officers
whom I consulted agreed
that this could easily be
done
(3) At present Tabr have to

inspect 100 stores a month. This might easily be raised to 200. The Colr should also see that D.T.s do a certain number of stores inspection regularly

(4) D.D.s apparently do no inspection of stores. The Colr may be asked to see that they do not neglect this work.

(5) An old district order directed the cycle to white-wash their stores every year. This is an excellent practice & greatly facilitates inspection.

(6) The Karnala M.I. has been doing M.I. work for about 9 years. The average M.I. is useless as a M.I. after 3 years. Now that the Unit scale of pay has been introduced there should be no difficulty in transferring M.I.s to clerical posts with is in the interests of district administration that this should be done. My, I think, approves (Indeed many of the suggestions are his.)

I agree with all the proposals.
